

LISTING OF THE CLAIMS

1. - 8. (Canceled)

9. (Previously presented) A mobile commodity case for storing a plurality of commodities, comprising:

a storing section for storing a plurality of detachable plates on which said commodities respectively having RF tags are placed;

input means for allowing an input operation to be performed;

a reader/writer for performing, based on the input operation, contact-less communications with the RF tags on the plurality of the plates; and

a display for displaying information of all the RF tags of the commodities, which information having been gathered en bloc via the communications, wherein an antenna of said reader/writer is arranged so as to be in parallel to the plates stored, and said reader/writer is provided on a surface at a bottom of said storing section so that the entire storing section is a communications region.

10. (Previously presented) The mobile commodity case as set forth in claim 9, wherein:

said storing section is provided on a side of a case main body;

the side of the case main body is provided with an open/close structure so that opening/closing of a case cover is enabled, the case cover being one side of the mobile commodity case; and

said input means and said display are provided on an internal surface of the case cover.

11. (Previously presented) The mobile commodity case as set forth in claim 9, wherein a grip for disposing the mobile commodity case is externally provided.

12. (Previously presented) The mobile commodity case as set forth in claim 10, wherein a grip for disposing the mobile commodity case is externally provided.
